## Cow-calf producer and beef finisher

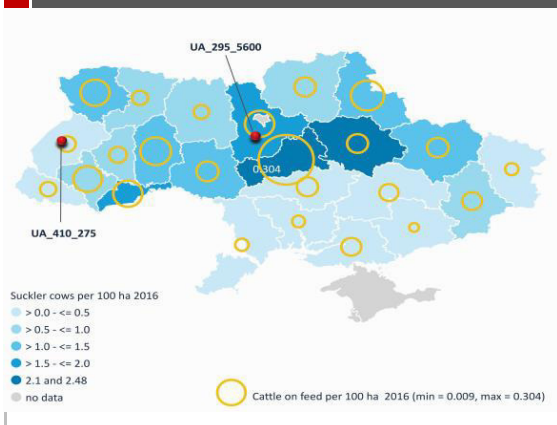

### Farm overview

Legal status	Limited liability company
No. of breeding cows	294
Breed	Angus, Simmental, Poliska
No.&type finished cattle sold p.a.*	5 600 bulls
Production system finishing*	Silage
No. weaners produced p.a.	60
Stocking rate (cows per ha)	3,68
Family labour (hours)	0
Hired labour (hours)	2 142
Other activities	Beef finishing, Dairy, Cash Crops

\* only if finishing on the same farm

### Location

### Natural conditions

Country	Ukraine
Region	Kiev
Relief	Plains
Elevation (above sea level)	168 m
Soil	Sandy
Climate	D – Moist continental mid-latitude climates
Main growing season	210 days, April – October
Average annual temperature	7,3 °C
Average annual precipitation	633 mm
Precipitation	Mainly in June – October

### Particularities

This typical individual farm is specialised in beef production (90% of market returns), with cash crops, cow-calf and dairy. The male calves are purchased from dairy or small household farms as light calves or store cattle. There are 151 full-time employees. This farm is financed and operated by a western investor, using mainly new machinery, equipment, barns and sheds. The strategic partner is a modern Ukrainian slaughterhouse producing hamburger patties, leading to a high price for the cattle.
