Hired labour (hours)	734
Other activities	Beef finishing

\* only if finishing on the same farm

#### Location

#### Natural conditions

Country	Uruguay
Region	Norte
Relief	Plains
Elevation (above sea level)	100 m
Soil	Sandy loam
Climate	Cfa - humid subtropical
Main growing season	September-November
Average annual temperature	18 °C
Average annual precipitation	1300 mm
Precipitation	Even, sometimes drought Jan-Mar

#### Particularities

This farm has next to the finishing enterprise also a cow-calf and a lamb enterprise. It's typical in Uruguay to have mixed systems with cattle and sheep. Animals graze whole year round on natural pasture. Dogs and horses are used to handle the cattle and sheep. Two family members and one cattleman work on the farm.
