CZ1200JM is a panel validated typical farm. The farm owns only 7 % of the cultivated land, the rest is rented. 10 hired labourers work on the farm plus 5 workers with more responsibility. They do all the jobs on farm, however, are assisted by a contractor for the wheat harvest.

Crops grown by CZ1200JM

CZ1200JM predominantly grows winter wheat (40 %), followed by corn (23 %) and barley. Malting barley is the major variety grown and a lesser share winter barley. Winter rapeseed is cultivated on 15 % of the farm's acreage.

CZ1200JM - winter wheat after winter rapeseed

CZ1200JM - corn after winter wheat
